She is in foal to TS Spots Hot Rolex, a son of the NCHA Hall of Famer (\$527,000) for a late May foal. This will be her 3rd foal by him, both have been very good-minded and conformationally correct. She is a great mom, foals easy, is an easy keeper, and has a lot of milk. Good to handle, stands tied, loads, and hauls good. She is 6-panel negative. Only reason for selling her is I'm going a different direction with my breeding program.

"Reba" is a sweet, older red roan mare that we purchased here as a bred mare in 2023. She has produced two nice foals for us and then ended open (exposed and US'd in foal) in 2025 and 2026. She cycles regularly and is easy to handle while breeding. We received no information of being broke/ridden when we purchased her and have only had her in our broodmare group. She is easy to catch, halter, load, and quietly stands tied. Reba is not assertive or a herd "boss" and is taken advantage of by some of our other broodmares.

"Juicy Fruit" is as loving and good-minded as a horse can possibly be. She passes her kind nature and laid-back mentality to her babies. She had a nice buckskin baby last year by "Wimpynedsacoctail" and "Woody be Tuff" the year before. We left her open to set her up for an earlier foal. She settles easily, with frozen, shipped cooled, or live cover. She is a great mother and an easy keeper. She is broke to ride and was leased to a guided trail ride outfit during one of her pregnancies for us. She's ready to breed to the stallion of your choice.

"Lady" is a quiet filly that leads, loads, and stands tied. We've hauled her on overnight camping trips. She stands tied all night at the hitching rail, she leads down the trails, over logs, and through water. She picks up all four feet and stands to be bathed, too. She's UTD on all shots and wormer. She does great in a box stall or turned out with other horses. She will mature to 14.3 hands and sells 100% sound. "

"Miss Kitty" is a stout gray mare that we purchased locally as an open mare in 2019. She is approx. 14.3 hands. She had a history of being ridden and producing nice foals by her previous owner. We took her trailriding through 2020, and she is a "pro" when it comes to being ridden (easy to halter, saddle, shoe/trim, load and quietly stands tied). Miss Kitty is good with other horses and calm and willing on the trail or in an arena. She has been easy and regular to breed and has produced several of our nicest foals (we've kept back 3). Last year she lost her month-old foal in the pasture, and we decided to ride her over the summer and leave her open (not exposed, but has been cycling regularly in 2025). She is not in foal for Spring 2026. She is very quiet and easy to handle while breeding. Miss Kitty is not assertive or a herd "boss" and can be used to "trail" colts while halter breaking. She is sensible and a reliable rider that you can choose to put into your breeding program. *** She was sold to us as not being easy to catch in a pasture of other horses and that's usually true (we call the horses all up to a smaller lot when she does this). Not dangerous "run-over you" to catch in a pasture, just good at avoiding being caught. She is completely calm and not going to run off after she has been caught.

Viper is easy to handle; he is great for the farrier, loads and bathes well, stands tied, and gets along with other horses. His gaits are smooth and cadenced. He moves nicely off the leg, neck reins, side passes, backs, and has a 360-degree turn suitable for horsemanship or ranch riding classes. Trail class obstacles—including gates, logs, bridges, and dragging—are a breeze for him. He also sets up for showmanship and holds his pivot foot perfectly during turns.

Viper is safe for all ages and skill levels. He stands quietly to be mounted from either the ground or a mounting block.

"Frosted" should check everyone's list with her WOW factor. She carries both the black and cream gene which gives her that unique color. Besides flashy she has also had 90 days with a great trainer. She has a good start and is ready to head any direction. She goes back to Frenchman's Guy and Smokin French Winner both having outstanding progeny earnings. As well as Smokin French Winner being an NFR qualifier himself. Don't miss this unique opportunity.

She is too big and too much horse for my 11 year old beginner daughter. Has been through Shimeck several times, long and short rides, in arenas, around cattle and other animals as well as obstacle courses. She's a great ride! Not selling sound. She has a limp on her front left that is noticeable due to an abscess many years ago with a previous owner and the wearing of her hoof. "Spoooner" is a correct sorrel gelding we raised. He has no blemishes and is currently 14.2 hands. He has had 60 days of professional training. Quick and agile but sane. He saddles, halters, loads, blankets, and quietly stands tied. He's friendly and will meet you in the pasture. Sire Pepto Smart Freckles earned his Register of Merit, was high point cutting, qualified twice for open world show cutting, earned 24 cutting points and 0.5 halter points. In 2015 his sire was shown in amateur cutting, finishing with a lifetime total of 25.5 points and earnings of more than \$5,400. His dam is an own daughter of Cat Ichi. His full brother brought \$20,500 at the 2024 Fall Triangle Sale in OK. Spoooner is a nice prospect that could be taken in any direction.
